Introduction to the core principles of nursing

Professional and Ethical Practice

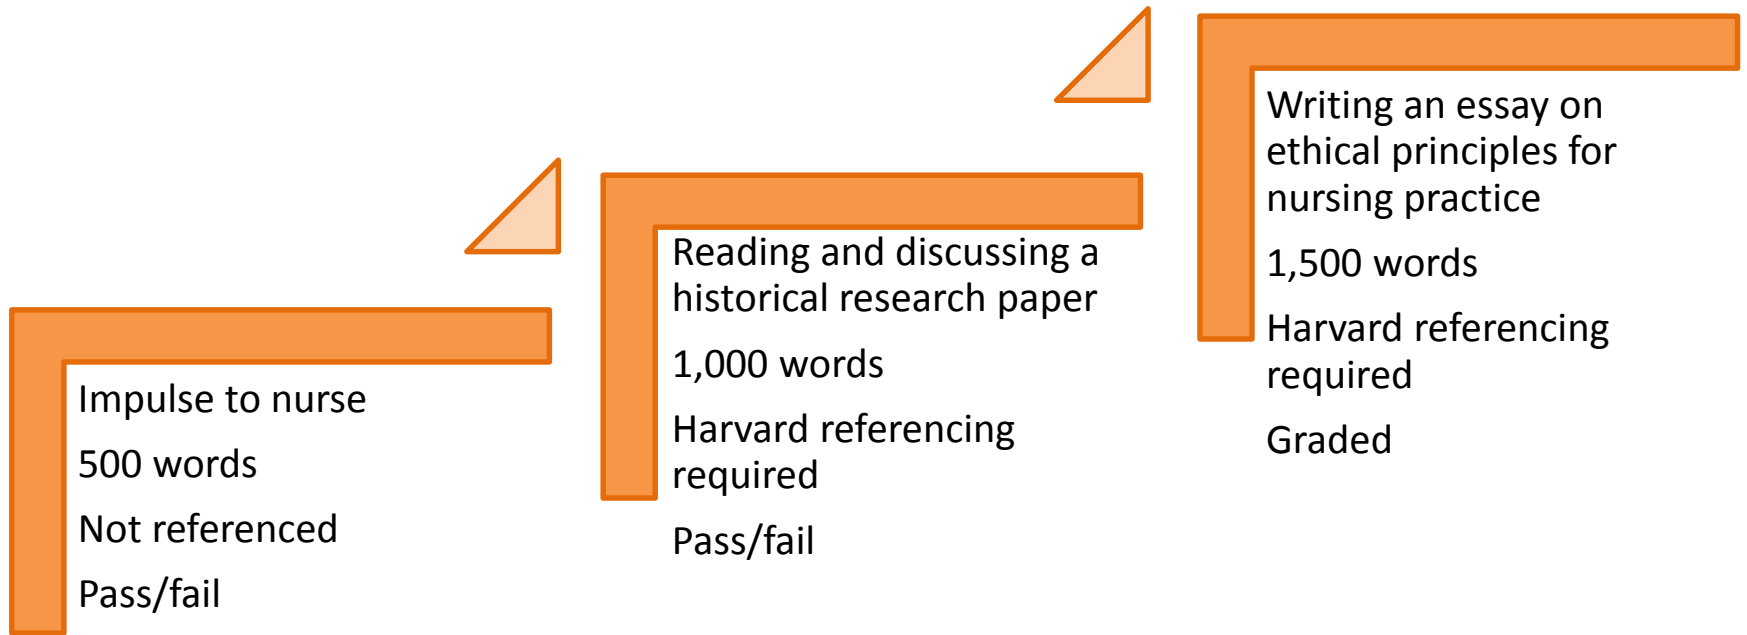

Student and staff evaluations

Core values for professional nursing

Assessment for Core values

Core Values for Professional Nursing

- Joined up thinking excellent relationship between 2 unit leads – critical to process
- Core and field weeks
- Themed weeks with historical aspect and then current practice
- Developmental assessment
 - 3 tasks of increasing difficulty
 - Feedback between each one
 - Test developing academic skills
- Inclusion of study skills
 - The most problematic aspect of the change
- Team meetings to support amalgamation of teams
 - Dealing with those who are subject specialists
 - smaller field inclusion
